

# CERTIFIED BY COUGAR

Since 1969, Cougar Drilling Solutions has been designing, manufacturing and delivering industry-leading downhole drilling tools, services and solutions from our facilities in Canada. That's over 45 years of experience that Cougar is pleased to share with you.

Introducing 'Certified by Cougar': the first industry certification process of its kind to help you establish, manage and service your fleets of downhole drilling tools. Through collaboration and education, we'll ensure you have the knowledge and skills required to better manage your tool fleet.

## WHAT IS "CERTIFIED BY COUGAR"?

Cougar will help set up your workshop, train your technicians and audit procedures to ensure your fleet of tools perform at the highest industry standard.

The certification process includes:

- Workshop layout assistance
- Guidance on spare part requirements
- Technician training, development and certification
- Annual and periodic audit reviews and workshop certification
- Professional support and technical assistance
- Preferential part pricing and availability

## WHY "CERTIFIED BY COUGAR"?

We understand that high performing tools depend on an organized service shop operated by well-trained staff. With support and training from Cougar you can expect to:

- Gain more control over your fleet of tools knowing they are always readily available
- Ensure your tools consistently perform to the highest standard
- Reduce excessive or unknown service costs
- Simplify your tool fleet and reduce capital investment

## OPTIONAL SERVICES

- Fleet management software
- Technical consulting and advisory services

"Certified by Cougar" is just another example of how we are engaged in your continued success. Contact a Cougar representative or email [info@cougarDS.com](mailto:info@cougarDS.com) to learn more about how to get your tool fleet working better.
