

PRINCIPLE 01.

# PERSONAL HEALTH AND SAFETY

GOOD HEALTH IS YOUR  
GREATEST ASSET. WE  
STRIVE FOR THE HIGHEST  
SAFETY STANDARDS IN  
EACH LOCATION FOR  
EVERY SITUATION.

Health and safety is regularly discussed at each location.

Processes and strategies are in place to make safety a priority, before a concern becomes an issue. Safety training will be current and relevant to each location. It will include courses like Hazardous Material Instruction, Forklift, Crane, and First Aid training.

Comprehensive benefit plans are provided to each employee.
